Foreword

It is with pleasure that I introduce Provincial Assistance to Municipalities, Boards and Commissions for 1984.

This book is your guide to the many programs offered our communities by the Province of Ontario. Designed as a quick reference, it details programs clearly and concisely.

Consultation with the appropriate provincial ministry before undertaking any expenditure commitments in the expectation of receiving provincial assistance is of course highly recommended. This is not only good management sense but imperative in this era of restraint.

Your community can benefit from any number of programs in this book. I hope you find it helpful and rewarding.

Yours sincerely,

Claude F. Bennett
Minister

Section 6
MINISTRY OF EDUCATION

GRANTS TO SCHOOL BOARDS 1984

Under Ontario Regulation 44/84, the following grants are payable to school boards. The grants are calculated separately for the elementary schools and the secondary schools.

1
ORDINARY OPERATING EXPENDITURE GRANTS

The *grant payable* is the excess of the recognized portion of the school board operating expenditure over the yield of a calculated mill rate in the dollar upon the equalized assessment supporting the board.

The *recognized ordinary expenditure* is the lesser of the actual cost and the product of $2,297 in the case of an elementary school pupil or $3,140 in the case of a secondary school pupil, a weighting factor that is determined by the Ministry for the school board, and the average daily enrolment of pupils of the board in day school, summer school and certain continuing education.

Grant assistance in respect of continuing education is limited to specific programs including adult basic literacy, citizenship and language instruction for landed immigrants, English as a second language for adults, and courses for adults for which secondary school credit is given.

The average daily enrolment of pupils for a board is determined in accordance with Ontario Regulation 256. For day school this is determined as 30 per cent of the enrolment on each of the last school days of January and April, and 40 per cent of the enrolment on the last school day of September. For summer school and certain continuing education classes it is determined as the full-time equivalent in terms of instructional time. Kindergarten and junior kindergarten subject to grant is limited to a one-half day basis enrolment.

In calculating average daily enrolment used for grants, recognition is included that costs do not reduce directly with enrolment declines. Thirty to sixty per cent of the decline from 1983 (depending on the board size) plus one-half of such assistance given in 1983 is included in the enrolment for grant purposes.

The average daily enrolment for purposes of grant calculation is increased in the case of grades 9 and 10 pupils in elementary schools by 23 per cent.

The *weighting factors* address variations among school boards in the need for educational services and in the cost of providing comparable education services. The factor components are:

Compensatory Education
Language Instruction
French-English Mixed Schools
Technical Programs
Cost of Goods and Services (Northern)
Small School Boards
Small schools
Teacher Experience and Qualifications

The mill rate used to determine the local portion of the recognized expenditure is calculated in the following manner:

$$\frac{\text{4,796 Elementary Schools}}{\text{OR}} \times \frac{\text{Total Recognized Ordinary Expenditure (incl. total tuition fees paid)}}{\text{3,634 Secondary Schools}}$$

Maximum Recognized Day School Ordinary Expenditure (incl. tuition fees)

The assessment used in the calculation is equalized using a four-year average of the equalization factors (issued by the Ministry of Revenue in 1980, 1981, 1982 and 1983) and is adjusted to reflect the 15 per cent difference between residential and commercial mill rates.

2
EXTRAORDINARY EXPENDITURE GRANTS

Extraordinary expenditure pertains to the types of expenditure that for reasons related to the nature or development of the jurisdiction served differ in terms of per pupil costs among school boards. These are costs in respect of the acquisition of facilities and for the transportation of pupils.

The portions of these expenditures recognized for grant assistance are determined by specific approvals.

The recognized expenditure is divided into two groups:

a) specific debt charges and pupil transportation expenditure that is in excess of $265 per day school pupil of average daily enrolment, and

b) the remainder.

The grant in respect of each group is the excess of the recognized expenditure over the yield of a calculated mill rate in the dollar upon the equalized assessment supporting the school board.

The mill rates used to determine the local portion of the recognized expenditure are:

a) .022 for elementary schools or .010 for secondary schools for each $100 of per pupil recognized expenditure.

b) .109 for elementary schools or .050 for secondary schools for each $100 of per pupil recognized expenditure.

Boards receive grants on current approved minor projects and on major projects prior to 1980 in accordance with the financing of the project including grant on debenture instalments which in some instances will continue to the year 2000.

3
FRENCH-LANGUAGE INSTRUCTION GRANTS

The recognized expenditure for grant assistance is:

a) For French language schools or classes $211 per elementary school pupil, $64 per subject credit for grades 9 and 10 secondary school pupils, $70 per subject credit for grades 11 to 13 secondary school pupils. In addition there is recognition for some start-up costs where French-language classrooms are established.

b) For French-language instruction for non French-speaking pupils the recognized expenditure is determined by formulae that takes into account the number of pupils instructed, their grade level, the time devoted to instruction each day and the total accumulated hours of French-language instruction. The amounts range from $70 to $211 per pupil at elementary schools and from $28 to $108 per subject credit for a secondary school pupil. In addition there is a grant for immersion start-up costs at the secondary school level.

The grant payable is:

a) For French-language schools or classes, 100 per cent of the recognized expenditure.

b) For French-language instruction for non French-speaking pupils, the excess of the recognized expenditure over the yield of a calculated mill rate in the dollar upon the equalized assessment supporting the board. The mill rates are .109 for elementary schools or .050 for secondary schools for each $100 of per pupil recognized expenditure.

4
GRANTS FOR SPECIAL EDUCATION PROGRAMS IN INSTITUTIONS OR HOSPITALS

The Ministry introduced effective January 1982, a new funding mechanism in respect of special education. In 1984, grants are the product of the Board's total enrolment (not just special education pupils) and a per pupil amount of $166 in respect of elementary school operations and $119 in respect of secondary school operations. In addition, a grant is paid in respect of each trainable retarded pupil of $3,930 adjusted by a weighting factor which takes into account the geographical location of the board. Where a school board employs a teacher to provide a special education program in certain specified facilities, institutions or hospitals, subject to approval a grant is payable to reimburse the board for the cost of the teacher's salary, related employee benefit costs plus a

$1,840 allowance for administrative costs, etc., up to $895 per teacher aide and up to $3,300 for the costs of classroom furniture and equipment.

5
HERITAGE LANGUAGE GRANTS

Elementary school boards receive a grant of $30.50 per classroom hour in respect of Heritage language instruction, subject to minimum class size and where the school day is extended in relation thereto.

6
ADJUSTMENT IN RESPECT OF CHANGE IN TAX REVENUE

School board grants compensate for any prior calendar year difference between the amount requisitioned by the school board or yield of the mill rate on assessment and actual taxes received. Effectively boards are compensated for "write-off of taxes" and grants are reduced on account of "supplementary" taxes received.

7
SPECIAL DEBENTURE ASSISTANCE

Debt charges acceptable to the Minister on debentures issued by a school board prior to April, 1980 that were not approved for grant assistance at the time of issue are now eligible for grant to the extent that such expenditure for the year exceeds the yield of .109 mills for elementary schools or .050 mills for secondary schools in the dollar upon the equalized assessment for the board in respect of each $25 per pupil of such expenditure. This base mill rate cannot be less than .113 for elementary schools or .234 for secondary schools.

8
GRANTS FOR BOARDS ON TAX-EXEMPT LAND

Certain school boards on tax-exempt land receive grants from the province. These boards include Department of National Defence School Boards and Ontario Hydro School Boards. Special funding provisions also apply to school boards established in a sanatorium, a hospital, a crippled children's treatment centre or a centre for the treatment of cerebral palsy.

The first group of boards receive 50 per cent of all operating grants exclusive of capital. The second group of boards receive 80 per cent of teachers' salaries and transportation costs and 50 per cent of all other costs exclusive of capital.

9
GRANTS FOR ISOLATE BOARDS

Small remote boards (with enrolment of 300 or fewer) receive grants equal to all approved cost in excess of the yield of a mill rate on equalized assessment of 4.905 mills in the case of elementary school boards or 3.684 mills in the case of secondary school boards.

10
COST OF EDUCATION REIMBURSEMENT

Where a school board provides education for:

a) a pupil who resides in Ontario in an area that is not within the jurisdiction of a school board, is not Federal Crown Land or is not an Indian Reserve;

b) a pupil who is resident in, admitted to or detained in certain specified facilities, institutions or homes; or

c) a pupil who is a ward of a Children's Aid Society, a grant is payable to reimburse the board the cost of education for the pupil.

The amount of reimbursement is the same as is permitted for inter-board billing of tuition fees. This is calculated in accordance with Ontario Regulation 42/84.

11
DIRECT CAPITAL GRANTS

Since April 1, 1980, the grants to school boards on major approved capital projects are paid as the expenditures are incurred. Payments are made on a quarterly basis on progress certificates submitted to the school boards. The rates of grant are identical to those applicable to extraordinary expenditure grants which, for a board of average assessment wealth, is 75 per cent.

12
ASSESSMENT EQUALIZATION FACTORS

The 1984 formula includes a provision which guarantees that no board will receive less grant for reason of using the average of the provincial assessment equalization factors issued by the Ministry of Revenue in 1980, 1981, 1982 and 1983. The comparison is to assessment equalized using the factors that were applicable in 1979. Similarly, grants have been provided to school boards to ensure that there is no increase in the proportion of the school board requisition that is borne by a municipality for reason of the new assessment equalization factors.

13
SECONDARY SCHOOL REORGANIZATION GRANT

Provisions were introduced in 1980 to encourage French-language education programs at the secondary school level and involve a reorganization grant to offset the start-up costs associated with the establishment of new homogeneous French-language entities.

For the first year of operation of such schools with an enrolment of 100 or fewer, the grant is $1,455 per pupil. For larger schools, the grant is $127,200 plus $183 per pupil to a maximum of $182,100. For the second year of operation, the grant is $970 per pupil for a school with an enrolment of 100 or fewer and for larger schools is $84,800 plus $122 per pupil to a maximum of $121,400. For the third year of operating, the grant is $485 per pupil for a school with an enrolment of 100 or fewer and for larger schools, is $42,400 plus $61 per pupil to a maximum of $60,700.

MUNICIPAL OIL CONVERSION AND ENERGY CONSERVATION PROGRAM

Assistance towards

Reducing oil consumption and energy operating costs in municipal buildings.

Eligibility

Phase 1 provides financial assistance towards converting existing oil-fired heating plants in municipal buildings to alternative fuels.

Phase 2 provides financial assistance towards undertaking energy conservation "retrofit" measures in existing municipal buildings.

All Ontario municipalities are eligible to participate in the program provided:

1) That the buildings designated for oil conversion or energy conservation projects are municipally owned and operated;
2) That the oil conversion projects were completed after August 1981 when Phase 1 of the program was announced; and

Any type of alternative fuel can be used in the conversion: solar, wind, wood, natural gas, propane and electricity are all viable alternatives.

Existing oil-fired plants can be replaced under the program only when burner conversion is impossible because of design restrictions or hazardous conditions.

Both the municipality and the alternative fuel supplier are required to complete the application form under Phase I of the program. The municipality is also responsible for providing supporting documentation confirming the building's oil consumption for a one year period prior to the conversion.

Guidelines: Phase 2

A variety of energy conservation projects are eligible for funding under Phase 2 of the program. Examples are:

a) Increasing the energy efficiency of lighting systems, including delamping;
b) Improving heating, ventilation and air conditioning systems, and their controls;
c) Installing heat recovery equipment;
d) Reducing the consumption of domestic hot water; and
e) Upgrading the building's thermal efficiency, including the addition of insulation, weatherstripping and caulking.

When a number of conservation projects are proposed for a single municipal building, only one application need be submitted — provided all projects will be completed within a year.

When on the other hand, conservation and retrofitting projects are proposed for more than one building, separate applications must be submitted.

The City Clerk must provide certification that the buildings under consideration are owned and operated by the city.

Funding Levels

Provincial assistance for individual projects under each phase of the program is available for up to 30 per cent of the project cost, to a maximum of $30,000.

For both conversion and conservation projects, funding priority is given to those with payback periods between one and five years. Funding is generally not available for projects with payback periods of under one year. Funding for projects with payback periods over five years is limited to a maximum of 15 per cent of the project cost and will also be subject to funding availability.

Grants, however, can only be used for direct costs of the conversion or conservation projects, and not for general repairs or the replacement of worn out equipment.

Technical assistance grants, to be used for hiring consultants, are also available. These grants will be limited to a maximum of $2,000, provided that the total amount of grant for the project does not exceed $30,000.

Although the number of provincial grants a municipality can receive under this program is not limited, the amount of money already granted to an applicant may be considered before distribution of the program's limited funds is determined.

Municipalities will be asked to monitor the energy consumption for a one year period following the completion of the oil conversion or energy conservation project, comparing fuel consumption and costs to those accrued during the year prior to the project. A cost comparison chart should then be prepared and submitted to the Ministry of Energy.

Section 8
MINISTRY OF THE ENVIRONMENT

Water and Sewage Service

The programs of the Ministry of the Environment are mainly directed towards assisting the construction of communal water and sanitary sewage works and the repair or renewal of private water and sewage systems. The number of projects assisted annually is limited by funds available. Projects are selected for award of grants by means of an MBR assessment system.

1
15 PERCENT GRANTS FOR MAJOR WORKS

Any municipality can apply for a grant towards the capital cost of major components of communal water and sewage works.

This includes the water supply: intakes, treatment and storage facilities and trunk feedermains; for sewerage: treatment facilities, outfall and trunk sanitary sewers and associated pumping stations.

Priority is given to:

a) works to service an area encompassing more than one municipality;
b) works providing for an increased supply of serviced lots in growth areas.

Grants are equal to 15 per cent of capital cost after deduction of federal or other grants.

Payment is made following contract award calculated on the project cost less 10 per cent

holdback. Final payment is made against audited final costs.

2
GRANTS AND LOANS TO SMALL MUNICIPALITIES FOR HIGH COST PROJECTS

Small municipalities of population less than 7,500 can apply for grants to assist the construction of new communal water and sewage works to service existing communities. Local distribution and collection works as well as major components are eligible.

Other conditions include:

a) Substantially all the built up areas must be serviced;

b) Where buildings have means of access to the service, municipalities must require that a connection be made, in accordance with Section 362a of The Municipal Act.

Priority is given to projects according to their contribution to health and environmental benefits and the servicing of urban growth.

Grants are calculated after deduction of federal or other grants. The assistance enables municipal costs to be limited to $1,100 and $1,400 per connection, for water and sewage service respectively, subject to a maximum of 75 per cent of net project cost.

Payment is made through quarterly advances against projected expenditures less 10 per cent holdback. Final payment is made against audited final costs. Loans up to a 30 year term at the provincial interest rate may be made available to municipalities lacking access to commercial funds.

3
GRANTS FOR THE REPAIR OR RENEWAL OF PRIVATE WATER AND SEWAGE SYSTEMS

This grant is for the benefit of small communities currently serviced by private systems, where health and environmental problems exist. Typically, the area considered would have insufficient potential for growth to require a communal system in the future.

Other conditions include:

a) grants will be made towards the cost of repair or renewal of systems serving homes that are principal residence in defined problem area;

b) grants may be considered for costs associated with systems for other dwellings, commercial buildings and small industries only when located in the defined problem area;

c) where a request is accepted, the Ministry will retain a consulting engineer to prepare a report to identify the problems and propose alternative solutions;

d) subject to the availability of funds, grants may extend over a two year period.

Priority is given to projects according to their contribution to health and environmental benefits.

Grants are equal to:

a) 100 per cent of the cost of the report;

b) 75 per cent of the costs of implementing the solution.

The amount of the grant will be committed over the period of construction.

CAPITAL GRANTS FOR HOSPITAL CONSTRUCTION AND RENOVATION

Ontario Regulation 859 under The Public Hospitals Act allows the province to provide grants not exceeding either 2/3 or 5/6 of the approved cost of constructing or renovating community hospitals. Approved costs include the cost of construction or renovation, professional fees and necessary basic equipment.

The 5/6 of approved costs is provided to hospitals located in a Northern municipality with a population of not more than 12,000 in a territorial district or a provisional county.

Regulation 862 under The Public Hospitals Act provides capital grants for teaching hospitals. The province accepts responsibility for the approved capital cost of the university hospitals and of teaching and research facilities forming part of the university affiliated hospitals.

In accordance with Regulation 861 under The Hospitals Act the province accepts responsibility for the approved capital cost of a regional rehabilitation hospital or that part of a hospital which provides special facilities for medical rehabilitation of patients. To qualify the hospital is expected to provide a wide range of special services and must be approved by the Minister as a regional rehabilitation centre before becoming eligible for grants on the basis of full costs. Regulation 860 under The Public Hospitals Act provides that, for rehabilitation facilities serving a local community or district (e.g. crippled children's treatment centres), the grant amounts to 2/3 of the approved cost.

Regulation 858 under The Public Hospitals Act provides that 100 per cent of the capital cost of economic investment projects may be paid where operating savings to the government will recover the capital cost within five or fewer years.

Regulation 856 under The Public Hospitals Act provides grants equal to 100 per cent of the approved capital cost for the amalgamation of hospital services where the estimated savings on net operating costs during the five years following the establishment of the amalgamated service equals or exceeds the approved capital cost.

Regulation 170/81 under The Public Hospitals Act allows the province to pay a special grant of 2/3 of the capital cost to correct hazardous

conditions resulting from the presence of asbestos in public hospitals. The special grant is 5/6 of the approved cost when the public hospital is located in a Northern municipality with a population of not more than 12,000 persons and in a territorial district or a provisional county.

II. RESOURCE EQUALIZATION GRANT

The Resource Equalization Grant is designed to reinforce the fiscal capacity of lower tier municipalities with below average tax bases, in order to increase their ability to upgrade local servicing without incurring excessive property tax rates. A portion of this grant is paid directly to upper tier municipalities.

Eligible Recipients

All lower tier and upper tier municipalities.

Basis of Assistance

The resource equalization grant is payable to each lower tier municipality whose 1983 equalization assessment is below $54,000 per household, when the assessment with residential and farm taxable assessment being discounted by 45 per cent, is equalized according to the average equalization factor appearing in the 1984 Regulation to the Act. The assessment deficiency rate, recognized for resource equalization grant, is based on the proportion that 60 per cent of the municipality's deficiency of the 1983 equalized assessment per household bears to $54,000, to a maximum of 25 per cent. This deficiency rate is then applied to the net general dollar levy of the lower tier municipality which is defined as the combined lower and upper tier municipal 1983 tax requirements and excludes taxation for school boards. The 1984 resource equalization grant is equal to the product of the municipality's net general dollar levy and its assessment deficiency rate, up to the maximum of the sum of the total 1983 resource equalization grant entitlement (lower and upper tier shares) and the product of its 1984 households and $2.50.

The portion of the resource equalization grant, determined on a basis of the ratio of upper tier taxes levied on commercial and business assessment to the total taxes levied on commercial and business assessment for all purposes, other than school purposes, is payable directly to the upper tier municipality. The region or county is required to credit this amount to its general revenues. The lower tier municipality is paid a resource equalization grant equal to the difference between the total grant and the amount payable to the region or county. This portion of the grant should be applied against taxes for own purposes.

III. SUPPORT GRANTS

Assistance towards the financing of municipal services.

Basis of Assistance

a) General Support Grant: Provides an amount equal to 5.75 per cent of the 1983 net general dollar levy to all municipalities, both upper and lower tier.
b) Special Support Grant: Provides an additional amount equal to 17.25 per cent of the 1983 net general levy to:
   i) all municipalities situated in the northern part of Ontario, and
   ii) all municipalities situated in the District of Parry Sound and to the Townships of Airy, Chisholm and the Improvement District of Cameron.

   This grant is in recognition of the generally higher costs of municipal goods and services in such areas.

"Net general dollar levy" for the purposes of these grants means a municipality's own 1983 tax requirements, excluding upper tier and school board taxation.

2
IV. REVENUE GUARANTEE

A revenue guarantee is provided on total unconditional grants. The total of 1984 unconditional grant payments for the six major grants to a lower tier municipality, Region or County is guaranteed to be at least 2.5 percent more than in 1983.

11
MUNICIPAL ACTION '85

This three-year program provides a wide range of initiatives designed to encourage municipalities to be more effective and productive, thereby reducing provincial involvement in local government. The program is aimed at municipalities interested in increasing productivity, improving cost-effectiveness, enhancing staff expertise, and adopting innovative management techniques. Direct funding is available from the ministry for three general categories of initiatives — training and development, budget accounting and control systems, and advanced management systems.

Assistance towards
Training and development
There are several training and development programs available to municipalities for the purpose of developing staff expertise:

Eligible Recipients
a) Training Incentive Grants
Senior staff in municipalities of less than 50,000 and in counties are encouraged to enroll in management and certain professional training courses — accounting, law, business and public administration, and management practices. Municipal Action '85 will offset the costs of training with annual re-imbursements of up to $400.

b) Municipal Management Bursary
Experienced senior administrators who enroll in advanced management training will be eligible for bursaries of up to $1,500. Approved courses include university graduate-level programs such as master of public adminstration or master of business administration; university certificate and diploma programs in public or business administration; and selected special programs.

c) Education Development Fund
Municipal Action '85 offers funding to help develop material that advances knowledge and awareness of local government. This may include the design of new educational material, new courses to teach management techniques and the consolidation of existing material for application to the Ontario scene.

d) On-location Training
Information-sharing in smaller municipalities occasionally takes the form of "borrowing" experts to solve particular problems. While not a substitute for formal

training, on-location help can serve as an issue-oriented "crash course" for staff. Financial support is provided for on-location training of staff when no other normal staffing arrangements are possible.

e) Basic Accounting and Control Packaging — BACPAC

BACPAC is a manual of basic bookkeeping, financial administration, and financial control. It is written in language for laymen and contains a model chart of accounts that will reduce the costs of training new treasurers, make auditing easier, and may reduce the total cost of auditing. BACPAC was developed for municipalities of less than 5,000 and has now been successfully tested in 12 pilot municipalities. The ministry will pay all external costs, to a maximum of $5,000, for implementing the program.

f) Advanced Management Systems

Municipalities may be able to increase productivity and reduce costs by developing and using such systems as comprehensive auditing, advanced budgeting, performance measurement, resources management, equipment maintenance control, etc. Municipal Action '85 may contribute to the development cost and will contribute to the sharing of information by documenting and publishing specific experiences with the systems for the benefit of other municipalities.

ONTARIO MUNICIPAL IMPROVEMENT CORPORATION

Assistance towards

An auxiliary financial program of assistance is provided to municipalities and school boards in the purchase of their debentures on last resort terms as follows:

1) for municipalities under 20,000 population
2) for school board residual loans which complement the direct capital grants program of the Ministry of Education.

Debenture Financing

Last resort lending is available as an assurance of debenture financing for those borrowers who otherwise have no reasonable source of capital funds. All loans are subject to statutory and procedural considerations. Borrowers are expected to search out alternative sources of capital funds. Treasury staff assistance and guidance is available for this. In practice, most borrowers do in fact find more advantageous financing elsewhere.

Lending Rate

The OMIC last resort lending rate is set by order-in-council, and follows very closely changes for the province's own obligations in the public market.
